Commercial & Industrial	30.74%	658,418,955	584,810,121	73,608,834
	100.00%	2,141,567,491	2,024,693,945	116,873,546

### Percentage of Net Taxable Value by Property Class for Assessment Year 2009

Net Taxable Value is the value on which the budget for each Levy Authority is based, and the value on which real estate taxes are calculated per parcel.

This chart shows the relative tax burden that each Property Class bears for all taxes in the County. The information is for Assessment Year 2009 for taxes payable 2010-2011. For purposes of this illustration, Commercial and Industrial have been combined, and all values for Railroad, Taxable Utility and Gas and Electric Utility have been combined.
